Dear Friend of Matagiri,

For a number of years we have sought to raise the funds necessary to create new infrastructure on the Matagiri land so that more people could live and work there and stay overnight as guests.

Through the generosity of some dear friends a \$20,000 matching fund has been established as an encouraging start for our fundraising efforts for new collective housing at Matagiri. Our plans include apartments, guest rooms, a community kitchen and a place for public presentations such as talks or cultural events.

With any building application, there are many bureaucratic hurdles, so the sooner we begin, the better.

Sam was called by the Mother to link East and West. We want to continue to serve that vision by making a strong and vibrant center. Your contribution will help make our 40th Birthday goal of \$40,000 possible. Checks can be sent to our address above, credit card donations can be made via our website. Thanks for your participation and support.

Sincerely,

Julian Lines

on behalf of the Matagiri Board of Trustees
